

*Clos de los Siete*

## ¿What is Clos de los Siete?

A dream, a place, a terroir, a wine. A unique experience

Clos de los Siete is the project led by the legendary international consultant winemaker Michel Rolland together with famed families who own famous Chateaux in Bordeaux.

Rolland arrived in Argentina in 1987 and after working with the country's most important wineries, he discovered the great potential of Argentina to make high-end wines. In 1999, together with its partners from Bordeaux, he inaugurated the Clos de los Siete in the district Vista Flores, heart of the Uco Valley.

Michel Rolland makes the blend with the contribution of the wineries Montevejo, DiamAndes, Cuvelier Los Andes and Rolland. This assamblage usually includes Malbec - main component - Merlot, Cabernet Sauvignon, Syrah and Petit Verdot.
